

International

Université Mohamed VI Polytechnique

L'université Mohamed VI Polytechnique et l'ENS Paris Saclay partagent le [MSDA Program !\[\]\(666e09182d4cd268646ea700ea60dcdf_img.jpg\)](#), un Laboratoire commun en Mathématiques Appliquées portant sur la modélisation et l'analyse des données.

Duke University

L'équipe de [Guillermo Sapiro \(Sapiro Lab\) !\[\]\(d66ff64371a51729ac8c1cdaa685ba6f_img.jpg\)](#) à [Duke University !\[\]\(0f31ebba7abcd47777e178db26f29705_img.jpg\)](#) et le pôle Image du Centre Borelli partagent des thèmes scientifiques, des publications et des échanges et visites réciproques.

Simons Collaboration on Localization of Waves

The goal of the project sponsored by the Simons Foundation is a unified understanding of wave localization, enabling the solution of some of the most compelling puzzles in modern condensed matter physics and gaining control over the behavior of waves in disordered media. This interdisciplinary collaboration involves researchers from University of Minnesota, University of Paris-Saclay, Cambridge University, MIT, University of California, Ecole Polytechnique, Institut d'optique Graduate School, ENS Paris-Saclay.
